

Best Practices for Managing your Apple ID

Before Changing Your Apple ID:

- Make sure you have access to the email account associated with the current Apple ID.
- Make sure you have access to the email account for the new Apple ID.
- If there is a phone number attached to the old Apple ID, make sure you have access to this phone for any codes sent to verify your identity.
- Sign out of all Apple services and devices i.e. iCloud, iTunes, Apple TV+, App Store, etc.

Changing your Apple ID

1. Using a web browser; i.e. Safari, Google Chrome, Firefox, go to: https://appleid.apple.com.

- 2. Login with your current Apple ID i.e. the email account you use.
- 3. If you have two-factor authentication on, you will get an alert that the Apple ID is being used to sign in on a device. Click on Allow.

- 7. You will get a verification email to verify that the new email is a valid account. Go to this email account and click on the verify in the email.
- 8. Login with this new Apple ID on all your devices for iCloud and Apps store etc. All your settings and content will be updated to work with this new Apple ID.
- 9. Go down to Security, select Edit.

Add additional trusted phone number(s) to your Apple ID

Adding additional Phone numbers to your Apple ID ensures you that if something happens to your primary number, a secondary Phone number can allow you to access your Apple ID account.

Note: Each phone number will get a code that must be entered to verify that specific number. Have all the phones nearby so the codes can be entered.

- 1. You can add additional trusted phone numbers.
- 2. A verification code will be sent to the phone and you will need to verify here.
- 3. When finished updating, select Done.
